

Mizzu Cho

UX UI Designer

Austin, TX | (817)805-2187 | mizzucho@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

I'm a UX UI designer who designs to humanize the product and vocalize the story. I want to work with other dreamers to create a genuine, emotional connection between the product and the target audience. I've recently completed a UX Design course at Careerfoundry to learn how to make user-center design decisions based on qualitative and quantitative data under three mentors. I've also completed an additional course to learn the basics of front-end development.

TOOLS: Figma, Miro, Usability Hub, Photoshop, Lightroom, Atom, GitHub

SKILLS: Creative problem-solving, user research, user interface design, competitive analysis, information architecture, card sorting, usability testing, user journey, user flows, wireframing, prototyping, basic HTML5 /CSS3

RELEVANT EXPERIENCE

UX UI Designer | Careerfoundry project - [Snapshot](#) | Remote | Apr 2021 - Dec 2022

- Designed a mobile application that allows users to organize and track their bloodwork data better. Conducted user research, produced interactive prototypes using Figma, analyzed usability test results and implemented feedback, and refined designs to ensure they meet Section 508 Web Content Accessibility Guidelines.

UX UI Designer | Careerfoundry project - [Diction](#) | Remote | Jan 2021 - Apr 2022

- Designed a mobile application that allows users to learn vocabulary. Conducted user research, produced interactive prototypes using Figma, analyzed usability test results and implemented feedback, and refined designs to ensure they meet Section 508 Web Content Accessibility Guidelines.
